- Press Ultra Bright Power Button Once: At any time – Mid & Side Leds in Ultra Bright Mode (Max: 1200 Lumen)

CHARGING INSTRUCTIONS

- **Very Important:**
 - **Charging ampere rating: between 1 to 3 amp.**
- **To insert battery, unscrew right hand side cap and place battery in headlamp, observing correct polarity.**
- **Screw on side cap tightly**
- **Always switch Flashlight off during charging**
- Unscrew left side cap to expose USB connector socket
- Insert male plug of USB charge cable into USB Connector socket
- Insert USB plug of charge cable into either AC Adaptor, DC Adaptor or computer USB port
- Charge Time: 5 hours
- LED charger indicator will show ORANGE / RED during charging.
- LED charge indicator will turn GREEN when battery is fully charged.
- When charging is complete remove male USB plug from USB connector socket and close side cap
- Over time, unused batteries will discharge and must be recharged before use.
- Use batteries only for intended purpose.
- Disconnect chargers from power sources when not in use.
- Do not leave flashlight unattended while ON

CAUTION: Total discharge of battery (totally flat) is dangerous and will shorten battery life
