

MODEL: LS-369

**10 WATT LED - ALUMINIUM ALLOY RECHARGEABLE FLASHLIGHT
WITH INTERCHANGEABLE POWER SOURCE OPTIONS**

PHYSICAL AND MECHANICAL DATA

SIZE IN MILLIMETRES	WEIGHT	PACKAGING	LIGHT SOURCE
Head Width : 45 mm Body Width : 34 mm Length : 150 mm	195 Gram (without battery)	Box	10W, SST20 LED 1200 Lumen

POWER SOURCE

1. Rechargeable 26650 Lithium-ion battery (3.7V – 5200 mAh) - (Minimum charge cycles: 700) OR;
2. Rechargeable 18650 Lithium-ion battery (3,7V – 2,200 mAh) – (Minimum charge cycles: 700) OR;
3. 3 x AAA Disposable batteries – batteries not included (Alkaline recommended)

CHARGE ACCESSORIES INCLUDED

1x Rechargeable 26650 Lithium-ion battery (3.7V – 5000 mAh) 	USB Charge Cable 	3x AAA battery holder (disposable batteries not included) 
--	---	--

OPTIONAL ACCESSORIES

DC 12V USB Car Adaptor	Traffic/Emergency Wand – Colours: Orange, Red, Green	Pouch	USB Wall Adaptor	Rechargeable 18650 Lithium-ion battery
				

SPECIFICATIONS: (When Battery is fully charged)

With 26650 battery: (3.7V – 5200 mAh)	With 18650 battery: (3.7V – 2,200 mAh)	With 3 x AAA Disposable batteries (Alkaline)
• Constant Burn Time at 100% : 3.5 hrs • Constant Burn Time at 50% : 5 hrs • Constant Burn Time at 25% : 7 hrs • Constant Burn Time – Strobing : 3.5 hrs	• Constant Burn Time at 100% : 2 hrs • Constant Burn Time at 50% : 3 hrs • Constant Burn Time at 25% : 5 hrs • Constant Burn Time – Strobing : 2 hrs	• Constant Burn Time at 100% : 20min • Constant Burn Time at 50% : 40min • Constant Burn Time at 25% : 1hr 10min • Constant Burn Time Strobing : 20min

FEATURES

- 4 Mode Settings: 100% - 50% - 25% - Strobing
- Can accommodate screw-in traffic/emergency wand (optional)
- Super Strong Aluminium Alloy Body
- Battery power indicator in Switch button. Activated when flashlight is switched on. GREEN when battery power is above 40% and RED when battery power drops below 40%
- Hard Anodising (Black)
- LED – 100,000 hr Lifetime
- Lasts much longer than conventional incandescent globes
- New built in energy management system, results in longer battery life
- Highly improved reflector providing a concentrated focussed spot
- Impact resistant: Drop – 1,5m
- Weather Resistant
- Beam Distance: 350m (pre-focused)

APPLICATION

- A great flashlight to use in all conditions and circumstances, robust enough to deal with rough handling and falling.
- The disorienting strobe effect allows the user to deal with violent individuals in dangerous low light and dark conditions.

OPERATING INSTRUCTIONS

- Press Switch Button once: 100% Brightness
- Press Switch Button: 50% Brightness
- Press Switch Button: 25% Brightness
- Press Switch Button: OFF
- Press Switch Button continuously for 3 seconds: Disorientating Strobe

(Whether flashlight is on or off when the Switch button is pressed continuously the flashlight will start to strobe).

CHARGING INSTRUCTIONS

Very Important:

- Charging ampere rating: between 1 to 3 amp

- Always switch flashlight off during charging.

- Remove rubber protection plug from hole on flashlight body to expose the micro-USB connector.
- Insert front of USB cable into the micro-USB connector.
- Insert the back of USB cable into either AC Adaptor, DC Adaptor or computer USB port.
- Charge time: 5 hours
- LED charger indicator in Switch button will show ORANGE / RED during charging.
- LED charge indicator in Switch button will turn GREEN when battery is fully charged.
- When charging is complete remove USB front and replace rubber plug in micro-USB connector.
- Over time, unused batteries will discharge and must be recharged before use.
- Use batteries only for intended purpose.
- Disconnect chargers from power sources when not in use.
- Do not leave flashlight unattended while ON
- **CAUTION:** Total discharge of battery (totally flat) is dangerous and will shorten battery life
